

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

Pleas support the "Fair Share Plan" so that I am not charged higher rates despite the fact that I don't use much long distance or cellular service. Businesses that use more should pay more- why should the little guys like me have to support them? A flat fee is not fair to the small time everyday citizen user.

Please support the Fair Share Plan which takes into account the amount of usage.

cc: Marlene Dortch, Secretary

Sincerely,

Gail Katak
